HOW TO USE THIS ROUTE GUIDE

1. Open the schedule and locate the **direction** of travel and **day of the week** you wish to travel. Find the intersection closest to where you want to catch the bus. **Note:** All stops can't be listed, but buses generally stop every few blocks.
2. Look down the column of this intersection and **timepoint** for your departure time for that stop. Regular print means AM times and **bold print means PM times.**
3. Read horizontally along the line that lists your departure time to determine when you will arrive at your destination. Make sure there is a time listed under your destination timepoint. If there is not a time listed, you will need to find a different trip to reach your destination.
4. To plan your return trip, look at the reverse direction of travel on your schedule and follow these same steps. Please note that on most routes, the stop for your return trip will be located across the street from the stop where you boarded the bus.

MORE TIPS

- On the **Route Map** 0 shows all connecting routes and 0 "timepoints."
- An overall MCTS system transit guide can be found at display racks located throughout the city or on RideMCTS.com. You can also use the Google Transit Trip Planner located on the RideMCTS.com web site to plan your trip.
- Be sure to get to your stop 3-5 minutes early.
- When you see a bus approaching, look at the electronic destination sign above the front windshield to verify the route number and final destination match those given in your route guide.
