

# MCTS FORWARD - Community Open House

## Help shape the future of your bus network.

MCTS is facing a budget shortfall that will require changes to the transit network over the next few years. Before any decisions are made, we want to hear from you. At this open house, we'll walk through two different concepts for what the future bus network could look like:

- The Ridership Concept, which concentrates service on the busiest routes, so buses come more often
- The Coverage Concept, which keeps some level of service in all the areas MCTS currently serves, even if buses run less frequently

We'll explain what each concept means, answer your questions, and ask you to complete a short survey sharing which approach or what balance between the two matters most to you.
